

The logo features the word "Golink" in a white, stylized, cursive font with a registered trademark symbol (®) to its upper right. This text is centered within a solid dark red square. The background of the entire page is a light gray wood grain pattern.

*Golink*®

**premium engineered wood flooring**

# Let's get golinked.

Golinkfloor®, is China's largest manufacturer of European Oak, American Black Walnut, ASH, Burmese Teak engineered wood flooring. We at Golinkfloor® envision the future of contemporary living spaces and pride ourselves in constantly innovating to achieve our company's vision: To represent the infinite future possibilities in parquet engineered wood flooring.

A reflection of our brand vision is visible in our parquet engineered wood flooring design: linking and communicating with each other, an assortment of luxury wood species handpicked from all over the world. A perfect mix of aesthetics, natural value, durability and pro-environment sensitivity, our products are made for those who like to stand apart through their choices.

We pride ourselves on a new brand - Golink Wood that caters to a variety of preferences and priorities, meeting ever-evolving consumer demands and providing a range of products to meet expectations.

# European Oak Showroom.

# European OAK WOOD

Made with uncompromising quality, we manufacture parquet engineered flooring that meet the highest quality standards for public and residential use. The smooth European Oak floors are offered in subtle, light colors that bring a clean, modern, vibrant look to any space, finished off with a durable ultra-matte urethane finish.

## Grade A B C D E

# Russian Oak Showroom.

# Russian OAK WOOD

Russian oak is delicate and not easily deformed, making it an ideal options for making wooden floors. Russian white oak is not too expensive in the case of extremely high quality. It is a high quality material with good quality and low price, which is more suitable for ordinary consumers.

Grade **A** **B** **C** **D** **E**

# American Black Walnut Showroom.

# American WALNUT WOOD

ASH

Grade **A** **B** **C**  
**D** **E**

The dark, rich chocolate colors of the hardwood and the lighter-colored sapwood combine to create a flooring surface that is both versatile and sumptuous. Tight grain can give black walnut floors a more uniform look, though boards with curly or wavy can be found as well, as walnut often produces a wider variety of grain patterns. Easily stained to a wide variety of colors, black walnut flooring creates a stunning look that transforms any residential or commercial interior.

# Burmese Teak Showroom.

# Burmese TEAK WOOD

Through hundreds of years and from generation to generation, teak has been the recognized wood species for exclusive land-based applications. Rightly so, as its unsurpassed characteristics, behaviour, golden colour, stability & durability are simply unmatched by any other tropical hardwood species.

# Surface Treatment.

For long-lasting pleasure

1. Brush
2. Handcraft
3. Smoke & Fume
4. Carbonize
5. Chemical Reaction
6. Lacquer
7. Oil
8. Raw (Unfinished)

\* The floors are given a multi-component lacquer finish, which makes the floor elastic and increases its scratch resistance.

\* The deep impregnation repeated on the naturally oiled floors several times emphasises the natural wood grain and protects the wood from the inside.

## Adhesive Coating.

American Franklin Phenolic -  
Hardener 200 adhesive.

Germany Treffert AL203 -  
scratch-resistant UV lacquer coating.
